

Morten Holum
President & CEO

Morten Holum was appointed President of Hexagon Purus in March 2020. He joined Hexagon in 2019 as Executive Vice President and Chief Operating Officer. Morten has extensive international business expertise from different industries and prior to joining Hexagon, he was CEO of Saferoad Group, a leading European supplier of road safety and road infrastructure solutions. He has also held key management positions in Norske Skog, Norsk Hydro and American Airlines.

Morten has an undergraduate degree in Finance and Psychology from Østfold College in Norway and the University of Oslo, and an MBA from the University of North Carolina, USA.

Salman Alam
CFO

Salman Alam has been part of Hexagon Purus since its early beginning in 2020 and was appointed CFO in March 2023, coming from the role as SVP Corporate Development. Before joining Hexagon Purus, he was Director of Finance at Hexagon Composites. Additionally, Salman has broad international experience within financial services, including from investment banking and M&A at Goldman Sachs and equity research at Carnegie Investment Bank. Salman holds a BSc in Business and Economics from BI Norwegian Business School and an MSc in Finance from London Business School.

Todd Sloan
EVP Battery Systems and Vehicle Integration

Todd Sloan was appointed EVP Systems in 2020. Prior to his role, he was SVP Innovation and Global Business Development in Agility Fuel Solutions. Todd is one of the founders of Agility Fuel Solutions and is an industry innovator with 20+ years of experience in the clean mobility industry.

Michael Kleschinski
EVP H2 Infrastructure & Mobility, Hexagon Purus

Michael joined Hexagon Purus in 2020 to spearhead the company's hydrogen infrastructure & mobility business. From 2016 he held several management positions for alternative fuel solutions in Hexagon Composites, with sole focus on hydrogen based zero emission solutions from 2018. Michael's career started at xperion in 2006 where he initially served as Development and Project Engineer for alternative energy systems for wind & ocean energy and alternative fuel storage. From 2008 he held various management positions in Operations & Development of composites components and alternative energy solutions. From 2014 he was Chairman of the Management Board of xperion energy & environment. Michael has a Bachelor of Science with Honors in

Mechanical Engineering from the University of Glasgow and a Ph.D. in composite materials from Darmstadt University.

Bo Dhaliwal
Vice President Business Development

Bo brings 20+ years of experience in clean transportation and holds a BSc and MSc. in Mechanical Engineering from the University of Manitoba and University of Alberta respectively. Prior to joining Purus in 2021, Bo, was the VP of Sales and Marketing for Westport Fuel Systems leading the natural gas Engine Controls and Management Systems sales and business development with commercial vehicle OEMs. Over the past twenty four years he has had the opportunity to be deeply involved with various aspects of clean tech in commercial vehicle transportation which includes product, engine and vehicle development for natural gas, propane and now

hydrogen and battery electric.

Alexander Melnyck
Director, Program Management

Alexander holds a BSc in Mechanical Engineering from the University of British Columbia and has more than 10 years of experience in clean transportation. He was the project manager for Hexagon Purus' first battery packs and eM2 trucks delivered to Daimler for the innovation fleet and was appointed to Director, Program Management in 2022. Before joining Purus Alexander worked for Agility Fuel Solutions with roles in design and project management of natural gas fuel systems.

Eric Coupal-Sikes
VP of eMobility Engineering

Eric leverages over 15 years of experience in the alternative fuels and zero emission commercial vehicle industry to lead the product development demonstration, and deployment of: complete BEV and FCEV commercial trucks, high energy density battery storage systems, real-time embedded software controls, big-data analysis of field usage data, as well as gaseous and liquid hydrogen storage systems. In addition to his role at Hexagon Purus, Eric is a board member at Hexagon Digital Wave. Eric graduated from the University of Southern California with a M.S. in Engineering Green Technologies and a B.S. in Electrical Engineering.

Drew Pearson
Director Product Marketing

Drew is a truck-industry veteran, joining the Hexagon Purus team after 15 years at Daimler Truck North America where, among many roles, most recently led the Freightliner Innovation Fleet program deploying pre-production battery-electric class 6 and 8 vehicles with over 45 key customers in the US Market, accumulating over 1.5 million miles of real-world testing. His experience guiding zero-emission technology adoption with fleet owners, local operators and drivers alike, brings a practical perspective to the challenges and opportunities fleets will face in the coming years. Drew graduated from Oregon State University with B.S. in Business Management.
