Benefits charging with Greenlane

- Reservation system reduces dwell time and avoids decoupling
- Schedule charging sessions ahead of time
- Visibility to charging locations and data under one platform
- Access to public charging network extends your fleet range and reduces driver range anxiety
- Use our flexible technology suite — **Greenlane Driver™** app, **Greenlane Fleet™** portal, and **Greenlane OnRamp™** API solutions that seamlessly integrate with your existing software and tools
- Enhance the driver experience with a comfortable lounge to relax and recharge
- Reduce your fleet emissions & align with sustainability goals

Membership

Our **Greenlane Edge™** membership offers you added convenience, scalability, and cost-savings when using our high-speed charging network, including discounted energy rates and much more.
